

Announcing Qobuz Connect for Cary Audio DMS-650, DMS-700, and DMS-800PV

Qobuz Connect is now the exclusive method for streaming Qobuz on the **DMS-650, DMS-700, and DMS-800PV**. This allows you to play music directly from the **Qobuz app**, eliminating the need for the Cary app. Simply power on your DMS unit, open the Qobuz app, and follow the steps below to start listening.

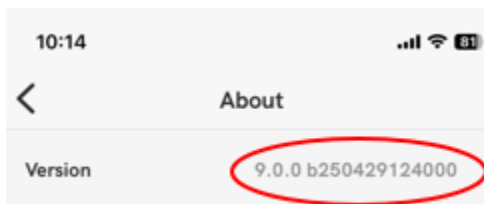

How to Use Qobuz Connect with Your DMS Unit

1. Update DMS Firmware

- Ensure your DMS firmware is up to date.
- **Important:** After updating, perform a **factory reset**. Once the reset is complete, **unplug the power cord for two minutes**.

2. Install the Latest Qobuz App

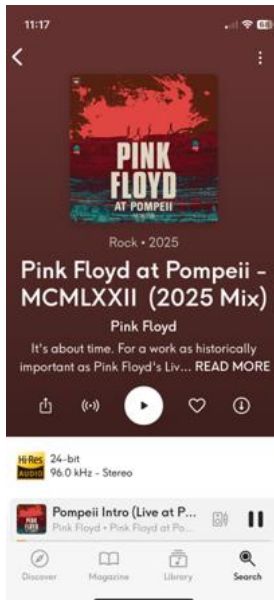

- Delete the current Qobuz app and download the latest version (**9.0.0 or later**).

3. Power On Your DMS Unit

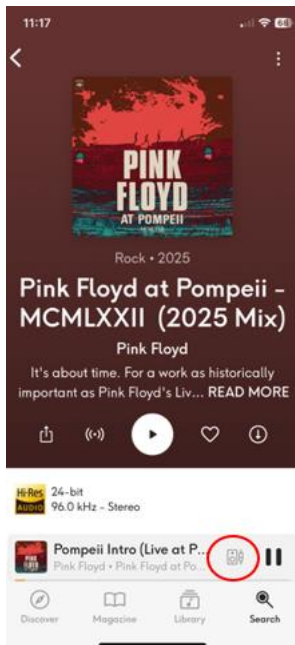

4. Open the Qobuz App

- Choose your music selection as usual.

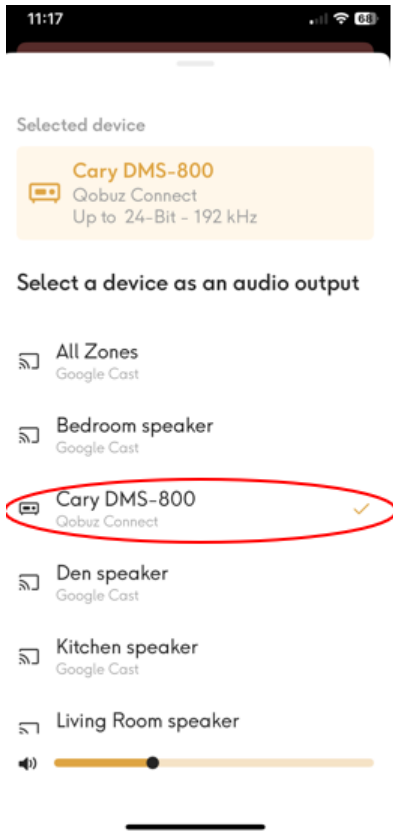

5. Select Your Device

- When the song begins playing, look at the **Play Bar** at the bottom of the Qobuz app.
- Tap the **Device Selection** icon (see *red circle below*).

6. Connect to Your DMS

- A list of available Qobuz Connect devices will appear.
- Select your **DMS unit** from the list.

7. Enjoy Your Music

- The music will seamlessly transfer to your DMS for playback.

Note: This is a direct connection to the Qobuz servers for the best possible playback quality allowing full access to all of Qobuz features while staying within the Qobuz ecosystem of navigation.

That's it! You are now set up to enjoy the best of Qobuz directly through your DMS unit with seamless high-resolution streaming. With Qobuz Connect, you can explore your favorite tracks, playlists, and albums with the highest audio fidelity—no additional apps required.

If you encounter any issues or need assistance, feel free to reach out to our support team.
Happy listening!
